WHAT YOU WILL STUDY

6 units, 600 guided learning hours

Security Testing	100 h · 17%
Artificial Intelligence	100 h · 17%
Databases	100 h · 17%
Digital Forensics	100 h · 17%
Ethical Hacking	100 h · 17%
Malware Analysis	100 h · 17%

UNIT BY UNIT

What each unit covers

Security Testing

100 hours

- Understand a range of security testing methods.
- Be able to perform essential mobile application security testing.
- Be able to perform essential web application security testing.
- Understand the ethical and professional standards in security testing

Artificial Intelligence

100 hours

- Understand the principles of artificial intelligence and data-driven learning.
- Be able to build and train neural networks.
- Understand how AI can be used for both offence and defence in the realm of Cyber Security.
- Understand the principles underlying neural network training.
- Understand a range of generative modelling architectures and techniques in deep learning.

Databases

100 hours

- Understand the fundamental concepts of databases.
- Be able to use SQL to interact with databases. Assessment
- Be able to design a relational database based on user specifications.

Digital Forensics

100 hours

- Understand the principles of digital forensics
- Be able to conduct forensic analysis of computer systems and storage media.
- Understand the legal and ethical aspects of digital forensics
- Understand the key techniques used in digital forensic investigations
- Be able to use digital forensic techniques to verify the source and authenticity of image and video data.

Ethical Hacking

100 hours

- Understand the role of penetration testing in enhancing Cyber Security.
- Be able to exploit security vulnerabilities and report findings to help mitigate and prevent security attacks.
- Be able to identify and assess security vulnerabilities through reconnaissance, scanning and vulnerability assessment.
- Understand the legal and ethical considerations for penetration testing.

Malware Analysis

100 hours

- Understand the different types of malware that exist and how they spread.
- Be able to perform malware analysis to identify and understand the function of malware.
- Understand how to detect malware and describe the challenges of doing so.
- Understand strategies to protect from malware and recover from attacks.

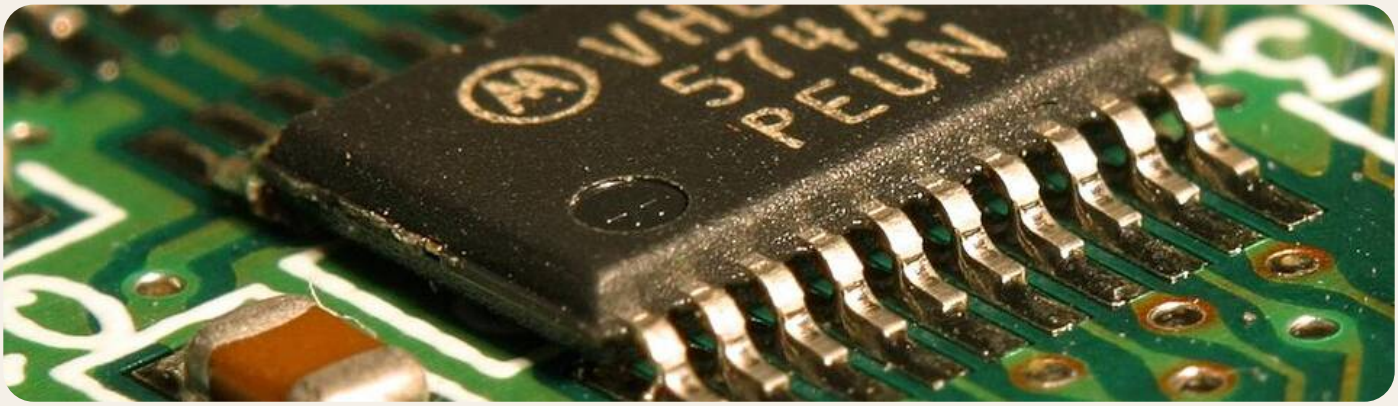

The learning outcomes OTHM Qualifications publishes for each unit. The assessment criteria beneath them are on the qualification page.

6	25	600
UNITS TO COMPLETE	LEARNING OUTCOMES	GUIDED LEARNING HOURS

Guided learning hours are the taught time OTHM Qualifications specifies. Your own study time is on top, and how long you take is up to you.

HOW IT WORKS

From your first unit to your certificate

01

You produce evidence

A portfolio of your own work, against the published criteria.

02

An assessor marks it

Qualified, and required to show current competence in the sector they assess.

03

The marking is checked

Sampled internally each term, and quality assured by OTHM Qualifications from outside the school.

04

OTHM Qualifications certificates you

We claim it from OTHM Qualifications. Recognised independently of us.

GETTING ON

Entry requirements

- These qualifications are designed for learners who are typically aged 18 and above.
- The entry profile for learners is likely to include at least one of the following:
- Relevant Level 3 Diploma qualification or equivalent qualification
- GCE Advanced level in 3 subjects or equivalent qualification
- Mature learners (over 21) with relevant management experience (learners must check with the delivery centre regarding this experience prior to registering for the programme)
- You will need your own computer that can run virtual machine software, and on which you are allowed to install it, because some of the assessed work is carried out in a sandboxed environment such as a virtual machine.

This qualification does not carry UCAS Tariff points, because UCAS gives points to Level 3 qualifications only.

THE COST

How paying works

TWO WAYS

Pay in full, which costs less than the published fee, or pay monthly. No interest and no credit agreement, and the payments stop on their own.

THE CURRENT FEE

On the qualification page at dataaischool.com, or ask us and we will tell you. It is not printed here, so nothing in this guide can quote you a price we are no longer charging.

Nothing is paid when you apply. Payment is taken only after you accept an offer, and we confirm the amounts with you first.

How long it takes. 600 guided learning hours, 1200 total qualification time, 120 credits

BEFORE YOU START

What you need to take part

Device
Laptop or desktop computer

Operating system
Windows 10 or macOS 10.15 or later

Browser
Google Chrome or Mozilla Firefox, latest version

Internet speed
10 Mbps download and 5 Mbps upload

Webcam
Required for live sessions and identity verification

Microphone
Required for live sessions

Published in DAIS-POL-024, and told to every learner before enrolment.

IN MORE DETAIL

About this qualification

The qualification carries 120 credits, 1200 hours of total qualification time and 600 guided learning hours. Every unit is internally assessed by the centre and externally verified by OTHM Qualifications, and each unit is graded Pass or Fail.

ASKED BEFORE

Questions people ask

Who awards OTHM Level 5 Diploma in Cyber Security, and how do I get my certificate?

OTHM Level 5 Diploma in Cyber Security is awarded by OTHM Qualifications. The qualification number is 610/5104/4. The Data and AI School of London is an OTHM Qualifications approved centre. Once your work is assessed and quality assured we claim your certificate from OTHM Qualifications, …

How long does OTHM Level 5 Diploma in Cyber Security take?

This qualification carries 600 guided learning hours and a total qualification time of 1200 hours. It is studied online at your own pace, so how long it takes in calendar time depends on how much you can commit each week.

What do I need before I can start?

These qualifications are designed for learners who are typically aged 18 and above. We assess every applicant individually and will tell you if a different level would suit you better.

Can I study this entirely online?

Yes. Teaching, materials and assessment are all delivered through our Moodle-based virtual learning environment, so you can study from anywhere in the UK. You need a laptop or desktop computer, a current version of Chrome or Firefox, and a broadband connection of at least 10 …

Can I enrol now, and when do I pay?

Enrolment is open, so you can apply online today. Nothing is paid at application: payment is taken only after you accept an offer. The current fee is on the qualification page at dataaischool.com, or ask us and we will tell you.

The same answers as the qualification page, built from the same record.

NEXT STEP

Apply, or ask us first

Applying costs nothing and commits you to nothing. Eight short steps, no card details and no deposit. We check the qualification suits you and say so if another fits better, and payment is taken only after you accept an offer.
