THE DATA AND AI SCHOOL OF LONDON | NCFE APPROVED CENTRE

Regulated qualifications for your staff

A summary for whoever owns staff development: what is available, what it costs, and how to verify us.

What we are

An NCFE approved centre delivering qualifications on the Regulated Qualifications Framework, regulated by Ofqual. Each carries a number on the public Ofqual register, so what your staff earn is verifiable by anyone, permanently, rather than being a certificate of attendance issued in our own name. We are not a university and do not award degrees; the awarding organisation is NCFE.

What is available today

Subject	Levels	Qualifications	Fees
Data and analytics	Level 2 to Level 7	6	£395 to £2,995
AI for the workplace	Level 2 to Level 7	7	£249 to £2,495
Cyber security	Level 2 to Level 5	6	£395 to £2,995
Cloud, networking and digital support	Level 3 to Level 5	4	£995 to £3,495
Coding and programming	Level 2 to Level 6	6	£395 to £1,995
UX and UI design	Level 3	1	£495
Business, HR and teaching	Level 3 to Level 7	5	£399 to £2,495
Functional Skills in English, maths and digital	Entry Level 3 to Level 2	6	£295

41 qualifications are open for enrolment as at 13 November 2026, from Entry Level to Level 5, including Higher Technical Qualifications approved against employer designed occupational standards. The full list, each with its Ofqual number and fee, is at www.dataaischool.com/courses/

Three that employers ask for most

- **Functional Skills English and maths, Levels 1 and 2.** The route for staff who need a recognised Level 2 in English or maths, including apprentices who have to achieve it. Assessment is set by NCFE and taken online under remote invigilation, which we arrange.
- **Level 3 Award in Education and Training.** For people who train or teach others without holding a teaching qualification: technicians, demonstrators, and staff who run in house training.
- **Data, AI, cyber security and cloud, Level 2 to Level 5.** For teams who need current technical skills evidenced against a national standard.

How a member of staff studies

Without leaving their desk. Delivery is online and self paced. There is no day release, no travel and no cohort to wait for, so enrolment starts on any working day rather than in September.

Assessed on work, not on exam nerves. Most qualifications are assessed by a portfolio marked by a qualified assessor, internally quality assured and externally verified by NCFE, and the evidence is drawn from work the person already does, so you get a written record of competence as well as a certificate. Functional Skills are the exception and include invigilated assessments.

How the money works

Invoicing	We invoice the organisation directly rather than asking staff to pay and reclaim. We need the organisation name as it should appear, the billing address, who it is addressed to, and a purchase order number if yours requires one
Terms	Payable within 30 days of the invoice date. The member of staff keeps their place while it is settled
VAT	None. We are not registered for VAT, so the published fee is the total your organisation pays and there is nothing to reclaim
Several staff	A small cohort can be placed on one invoice. Fees are per qualification as published; tell us the numbers and we will quote
Verifying an invoice	Every invoice carries a reference beginning DAIS-INV and can be checked at www.dataaischool.com/verify/, which confirms it came from us and has not been altered
At application	Nothing is payable. Payment is arranged after a place is offered and accepted

How to check all of this

- Search any qualification number on register.ofqual.gov.uk to confirm the qualification, its level and its status. Ours are published on each course page, and www.dataaischool.com/check-a-qualification/ takes you straight to the register.
- Confirm the centre with the awarding organisation, NCFE.
- Companies House: THE DATA AND AI SCHOOL OF LONDON LTD, company number 16953235. UKPRN 10100463. ICO registration ZC086597.

What we are not claiming

No claim about salary, promotion, productivity or a job outcome, because no provider can know those. We hold no funding agreement, so this is paid provision and not a government funded route: the published fee is what it costs. Whether any qualification is accepted for a particular purpose is always the receiving organisation's decision, never ours.
